RUBRIC – COMPARATIVE ANALYSIS

LEVELS OF ACHIEVEMENT CATEGORY	SUPERIOR – 100	ALTO – 85	BÁSICO – 70	BAJO – 40
CHARACTERIZATION	Compared objects are described by using their main characteristics.	Compared objects are described by using most of their main characteristics	Compared objects are partially described by using their main characteristics.	Compared objects lacks descriptions about their main characteristics.
SELECTION TO COMPARE ELEMENTS	The selected elements accomplish all factors and dimensions required to the proposed theme.	The selected elements accomplish most of the factors and dimensions required to the proposed theme.	The selected elements accomplish some of the factors and dimensions required to the proposed theme.	The selected elements lacks relations to factors and dimensions required to the proposed theme.
SIMILARITIES AND DIFFERENCES	The scheme shows main similarities and differences among compared objects.	The scheme shows most of the main similarities and differences among objects.	The scheme shows some similarities and differences among compared objects.	The scheme shows only a little classification without differences and similarities.
CONCLUSIONS	Explanation done shows appropriation to proposed elements, relating them to its environment.	Explanation done shows proposed elements.	Explanation done shows few appropriation to proposed elements.	Explanation done do not show appropriation to proposed elements and its relation to the environment.
